

IN PEOPLE WE TRUST

MEET GEMMA

Breaking barriers and building a career with purpose

Gemma joined St Monica Trust nearly ten years ago, never imagining where her journey would lead. Joining as a carer, she later became the only female porter at Westbury Fields.

When the Residential Services Team Leader position opened covering two of our sites, she was encouraged to apply. Two years on, she's thriving in a role that continues to challenge and develop her.

She's now completing a Level 3 Facilities Management apprenticeship and taking part in the Village Manager Development Programme to build her leadership skills.

What Gemma values most about St Monica Trust is how everyone is truly seen, colleagues and residents.

Her message to anyone considering joining? "If compassion and patience drive you, this is your place." At Trust events, her singing has become something of a signature — capturing the connection she builds with everyone around her.

Why join us?

You'll belong to a team that cares, makes a real difference, and supports you to grow.

Gemma's journey shows what's possible when opportunity meets determination.
